

Beverley Eert, Green Party, Portage-Lisgar

---

I am sure that another Green Party candidate will have answered these questions for you, but I suppose that as a candidate for the only party that does not whip its MPs, I should express my feelings about what has happened to our lakes and wetlands: abject horror.

The Green Party is often accused of being a one-issue party, which is not true, but in this case our environmental concerns would make us a best bet for addressing your concerns for a healthy Lake Winnipeg and watershed.
