The genesis of *Rise and Shine, Lake Winnipeg* was a short, five-line poem that was written as part of a creative writing assignment at Red River College back in 1971. With the encouragement of my instructor, I filled it out to include a few more verses. It sat on a sheet of paper – untouched – for a couple of years.

Then I happened to meet a musician from Husavik, Manitoba, named Lorne Martin. We would soon discover that we were born just days apart at Gimli Hospital, and that our dads had commercial fished together on Lake Winnipeg. Instant connection!

Lorne took it upon himself to write a melody and turn my poem into a song – one which became the staple of many a Lake Winnipeg bonfire. It was performed in public a few times over the decades, and was even recorded in 2011 at Lorne's home studio in Arnes, with my daughter Lindsey singing lead vocal.

In 2011, the unthinkable happened. Lorne passed away very suddenly, and from that day forward, I committed to fulfilling a wish that the two of us had shared: to make *Rise and Shine* known to a broader audience. In 2016, I contacted the Lake Winnipeg Foundation... and the rest is history.

Lorne had a deep respect for the land and the watershed. He would be so proud to know that the young people of today are singing the praises of the lake he loved.

Rise and shine, Lake Winnipeg, rise and shine. Rise and_ _ _Lake Winnipeg, rise and shine.
The Lake Winnipeg Foundation began around a kitchen table in 2005, founded by citizens who shared a concern for Lake Winnipeg’s future and a belief that they could change things for the better. Today, we are a growing community of lake-lovers – and together, we are translating science into solutions for the health of Lake Winnipeg.

At LWF, we understand that music has the power to connect us. Water also connects us. It is essential to life on our shared planet and its health is our shared responsibility. *Rise and Shine, Lake Winnipeg* speaks to Lake Winnipeg’s history and evokes its enduring beauty. Through melody and words, it captures how many Manitobans feel about this iconic water body – the 10th largest freshwater lake in the world.

With this song, Rod and Lorne gave us all a gift. We are delighted to help turn this gift into a lasting legacy by transforming *Rise and Shine, Lake Winnipeg* into choral score.

Offered at no cost to music teachers throughout Manitoba and beyond, our wish is for educators to use this song to engage with their students about why Lake Winnipeg is important – and why it’s worth protecting, now and for future generations.
